Hi Shawn,

Two letters have been signed by the Division that authorize Graymont to:

- 1) drill the 4 holes added to the Cricket Mountain Dolomite exploration permit (E/027/0071), and
- 2) drill the 8 holes planned within the boundaries of the existing Cricket Mountain large mine permit (M/027/0006).

Bond is adequate to cover both amendments to these permits. Please pay attention to the conditions of the letters when you receive them in the near future by mail, as additional maps will be required later this fall. Let me know if you have questions.

Peter

Hi Peter,

Here's the map showing the proposed drillholes including the permit boundary. These holes are all located within our current permitted disturbance boundary. I double checked the remaining drillholes in the area and they have all been included in the current approved exploration permit.

Thanks,

Shawn Davis
